ABOUT THE SOCIETY

The Society of Economics and Development is a scientific society of individuals and institutions interested in the field of Economics and related disciplines. The principal aim is to promote the research efforts in the field of Economics, Business Studies, Sociology and Development. The membership of the society is open to professionals actively involved in the betterment of society. Their work addresses a broad range of disciplines such as economics, applied economics, rural development, resources and environment, food and consumer issues, and agribusiness. The Society of Economics and Development brings together researchers and other professionals around the globe interested in solving the socio-economic problems of the society and to exchange the knowledge and understanding in areas relating to Economics, Agricultural Economics, Business Management, Consumer Behaviour and Sociology. The Indian Journal of Economics and Development [NAAS Score: 4.82, and Indexed in Emerging Sources Citation Index (Thomson Reuters)] is an official organ of the society and is regularly published, widely circulated and read. Due to its high impact, the journal attracts quality papers from Indian and foreign authors. The annual Conference/Seminar provides an excellent forum for interacting and discussing on identified themes based on their pertinence.

PUNJABI UNIVERSITY, PATIALA

Punjabi University, Patiala, Punjab, India, one of the premier institutions of higher education in Northern India, was established on the 25th April, 1962 under the Punjab Act No. 35 of 1961. This is the second University in the world to be named after a language, the first being Hebrew University of Israel. Initially, the University started with the objective of developing and promoting the language, literature and culture of the Punjabi people. Over the time, it has evolved into a multi-faceted and multi-faculty educational institution. Presently, it has seventy-four teaching and research departments covering disciplines in Humanities, Arts and Sciences as diverse as Fine Arts, Biotechnology, Forensic Science and Space Sciences. The university provides international standard facilities for students and researchers in various disciplines. The University has a modern and well-planned campus situated on Patiala-Chandigarh road at a short distance from the main Patiala city. Sprawling across 316 acres, the campus is away from the din and noise of the city. It presents a splendid sight of magnificent buildings which include the famous Guru Gobind Singh Bhawan.

ABOUT THE NATIONAL SEMINAR

Sustainable Development: Socio-Economic Concerns

While the modern concept of sustainable development is derived mostly from the 1987 Brundtland Report, it is also rooted in earlier ideas about sustainable forest management and twentieth century environmental concerns. As the concept developed, it has shifted towards focus more on economic development, social development and environmental protection for future generations. It has been suggested that "the term 'sustainability' should be viewed as humanity's target goal of human-ecosystem equilibrium, while 'sustainable development' refers to the holistic approach and temporal processes that lead us to the end point of sustainability". Modern economics are endeavouring to reconcile ambivalent economic development and obligations of preserving natural resources and ecosystems, as the latter are usually seen as of conflicting nature. Besides of holding climatic change concerns and other sustainability measures regarding the economic development, turning and leveraging them into market opportunities will be greater good. The economic development through such organic principles and practices in an economy is called Managed Sustainable Development (MSD).

The backdrop of the paper writers may focus on the following subthemes:

1. Constructing Modern Integrated Development Epitome for Indian Agriculture
2. Linkage of High Technology Development Towards Agricultural Productivity
